

citrus wash troughs

Made to measure solid surface wash troughs available in a choice of bold and funky colours.

CIS CRAWFORD
INTEGRATED SYSTEMS

citrus wash troughs

Citrus wash troughs are manufactured using Corian solid surfacing material. To avoid dirt traps the complete base of the trough is thermoformed from a single piece of Corian giving a smooth and curved appearance that also gently slopes towards the waste outlets.

These troughs are equally at home in the open plan concept of modern school washrooms and in commercial applications that are tight on space.

Available on tight timescales, quick to install and space saving over conventional ceramic wash basins and yet they remain surprisingly affordable.

Choose from six bright and funky colours to add the wow to your washroom.

Features

- Floating appearance
- Wide choice of materials and colours
- Versatile
