

Coin Locks

Coin & Key Locks. Flexible & Functional

Designed for intensive use in dry or wet areas, with a traditional key or, for added security, a high security “dimple” key.

The lock incorporates a special mechanism which will take both the old and the new pound coin, it can also be configured to take a euro coin, or both a pound and euro coin.

Main Features

- Single coin lock (can accept both new and old £1 coins) other currencies also available e.g. Euro's
- The user can use the lock by inserting a coin (to be specified) and gets it back after use by placing the key in the lock and opening the door.
- The lock can easily be converted into a coin collect lock with the addition of a coin box (see optional accessories).
