

Wristbands

Our range of wrist straps are made from a highly tough and durable Elastomer to withstand the harsh chlorine/chemical rich environments of today's leisure centre's which can quickly degrade standard plastics and rubbers. This soft flexible material is also friendly to touch and hygienic unlike some Fabric straps.

Features and benefits at a glance

- Fully adjustable for all wrist sizes
- To suit all popular key types.
- Tough and durable Key is enclosed whilst wearing Numbered or unnumbered (numbers don't have to be sequential)
- No metal buckle to cause injury
- Ergonomically moulded shape to suit your wrist for ease of use
- Different colour options
